

MQL Funnel Analysis Report

Report Date: 2026-03-26

Total MQLs Analyzed: 307

Internal Marketing Report - Confidential

Executive Summary

- * Paid Social is the largest channel (193 leads, 62% of total) but has only a 8.3% conversion rate - the volume-to-quality gap is significant.
- * Direct Traffic delivers the best conversion quality: 19 of 61 leads converted (31.1% conversion rate), suggesting high-intent inbound visitors.
- * The top nurturing reason is 'Just looking for info' (29 leads, 32% of nurturing), indicating a key qualification gap that should be addressed at the top of the funnel.
- * Overall funnel health: 16.9% converted, 29.0% in nurturing, 8.8% disqualified, 45.0% still active. More than half the funnel has not yet converted.
- * Spain is the top country by volume (147 leads) with a 19.0% conversion rate - a strong anchor market.
- * 'Europe' appears as a country for 1 leads - this is a data quality issue. These leads cannot be properly geo-analyzed and should be reviewed in HubSpot.
- * Language barrier accounts for 11 nurturing leads, pointing to AE routing issues where non-Spanish/English leads are handled by the wrong team.

Overall Funnel Distribution

By Lifecycle Stage

Lifecycle Stage	Count	% of Total
Marketing Qualified Lead	138	45.0%
Nurturing	89	29.0%
Opportunity	26	8.5%
Not ICP	23	7.5%
Sales Qualified Lead	19	6.2%

Reason × Segment

Reason	Mid-Market	SMB
Just looking for info	10	19
No answer	2	9
Language barrier	2	9
Timing	0	10
Under contract with competitor	0	4

Key Observations

* 'Just looking for info' is reason #1 (29 leads, 32.6% of nurturing). Predominantly from Paid Social (22 leads). Suggests top-of-funnel qualification questions should filter these leads earlier.

* 'No answer' is reason #2 (11 leads, 12.4% of nurturing). Predominantly from Paid Social (7 leads). Add pre-qualification to forms and ads to filter low-intent leads.

* 'Language barrier' is reason #3 (11 leads, 12.4% of nurturing). Predominantly from Paid Social (9 leads). Review ad targeting and country-language routing to reduce friction.

Disqualified (Not ICP / Lost) Analysis - 27 leads

Recommendations for Marketing

Recommendation 1

Address top nurturing reason 'Just looking for info': Add intent-qualification questions to landing page forms (e.g., 'Are you currently managing a property?', 'How many units do you manage?'). This alone could prevent 29 leads from entering nurturing without intent signal.

Recommendation 2

Paid Social has a 8.3% conversion rate on 193 leads. Reduce wasted spend by adding property-count filters to Facebook/Instagram ad targeting (require 5+ units) and add a disqualifying question at the form level.

Recommendation 3

Language barrier affects 11 leads, primarily from: Czech Republic, Croatia, Malaysia. Review AE routing logic - route non-Spanish/non-English leads to the appropriate regional rep. Consider adding language-based routing in HubSpot workflows.

Recommendation 4

Fix 'Europe' country data: 1 leads have 'Europe' as country - a HubSpot enrichment failure. Enable IP-based country detection or require country field validation on all landing page forms. These leads are unroutable and unanalyzable.

Recommendation 5

Direct Traffic converts at 31.1% - nearly 3.0x the Paid Social rate. Invest in SEO and content to grow organic and direct traffic. Review landing pages for Paid Search to improve landing-to-MQL conversion quality.

Recommendation 6

'No answer' accounts for 11 nurturing leads. Implement automated follow-up sequences for MQLs that don't respond within 48h: add 2-3 automated touchpoints (email + WhatsApp) before moving to nurturing.

Recommendation 7

'Timing' (10) and 'Compliance/paperwork not ready' (4) total 14 leads. These are temporarily unready but not disqualified. Create a structured 30/60/90-day re-engagement nurture sequence with compliance guides and feature updates to convert them when ready.

Appendix - Full Lead List

All 307 leads sorted by bucket then segment. Colors: green=converted, yellow=nurturing, red=disqualified.
