Just looking for info	-	10	19
No answer	-	2	9
Language barrier	-	2	9
Timing	-	-	10
Under contract with competitor	-	-	4

Key observations:

1. 'Just looking for info' is the dominant nurturing reason - Marketing should investigate whether this reflects intent gaps in lead gen or AE qualification criteria.
2. Leads without a populated nurturing reason may indicate incomplete CRM data hygiene - consider making this field mandatory.
3. Sources with high nurturing rates but low disqualification suggest leads are 'not yet ready' rather than wrong-fit - retargeting

campaigns may be effective.

4. High nurturing rates from paid channels suggest ad targeting may be attracting lower-intent audiences.

Recommendations for Marketing

1. **[LOW CONVERSION]** 'Paid Social': 8.3% conversion rate with 193 leads. Consider adding friction to forms or refining targeting to improve lead quality before investing further.
2. **[SCALE UP]** 'Direct Traffic': 31.1% conversion rate. This channel produces quality pipeline - consider increasing budget allocation.
3. **[SCALE UP]** 'Organic Search': 23.3% conversion rate. This channel produces quality pipeline - consider increasing budget allocation.
4. **[LEAD QUALIFICATION]** 'Just looking for info' is the top nurturing reason. Add qualifying questions to landing page forms (e.g., property count, business type) to filter out lower-intent leads earlier in the funnel.
5. **[DATA QUALITY]** 1 leads have 'Europe' as country (non-specific). Fix UTM tracking or form country fields to capture specific countries - this blocks accurate regional analysis.
6. **[TARGETING]** 'Paid Social' generates the most disqualified leads (19 Not ICP/Lost). Review audience targeting parameters for this channel to reduce wasted spend.
7. **[GEO FOCUS]** Spain generates the most conversions (28). Prioritize campaigns, localization, and AE coverage in this market.
